SUMMARY

Full stack developer with production experience building Laravel/React web applications for government agencies and 20+ commercial clients, plus React Native mobile development on personal projects. Built an AI-powered legal document generator using Gemini with RAG-based Q&A, a company-wide project management platform, and a lead-gen platform that helped convert 10+ Meta Ads leads. Comfortable owning features end-to-end, from database to deployed UI.

WORK EXPERIENCE

Full Stack Developer, Choros.io

Sep 2025 - Jul 2026

- Delivered full-stack web applications and custom websites for 20+ clients across legal, home interiors, plumbing, and other industries, using Laravel, Inertia.js, React, and TypeScript.
- Developed a marketing prospecting platform that automated lead discovery and data collection for Meta Ads campaigns, contributing to 10+ leads converted into paying clients.
- Improved technical SEO across client sites through semantic HTML, metadata, and structured content, achieving average PageSpeed Insights scores of 98%.
- Built Project Pulse, a company-wide project management platform adopted by 2 teams across development and marketing, improving project progress visibility by 70% and reducing reliance on manual spreadsheet tracking.

Junior Developer Intern, Provincial Government of Negros Occidental (ICTD)

Jun 2025 - Jul 2025

- Contributed to development of the One-Stop Shop platform using PHP and MySQL, helping advance the web app from 60% to 95% completion.
- Provided on-site IT support across departments, including software installation, troubleshooting, and computer assembly and repair.

EDUCATION

Bachelor in Engineering Technology

Aug 2022 - Jun 2026

Technological University of the Philippines, Visayas

- Major in Computer Engineering Technology.
- Thesis on "Development of GIS-Based Cemetery Information System for Interactive Mapping".
- Relevant coursework in Data Structures and Algorithms, Database Systems, Operating Systems, Computer Networks, Software Engineering, Machine Learning, Web and Mobile Application Development.
